Features / Comments

The new 2019 WideWheel is the most dynamic 8 electric scooter weve ever tried. With front and rear suspension and ridiculously wide 100mm tires, its incredibly comfortable even when on uneven terrain. Due to the extra wide wheel profile, the WideWheel can provide better stability when turning and traction on a wet surface.

WideWheel boasts dual high-powered 48V 500W BLDC hub motors which offers excellent hill climbing torque and improved riding performance for more demanding riding conditions. The wheel assemblies are designed to adjust to uneven terrain, providing a smoother ride.

WW02D Dual Motor 13.2ah

Weight: 20.5kg

Frame: Aluminium Alloy
